Bachelor Thesis

- Title *The influence of natural resources on sectorial employment. Grade: 8.*
- Supervisors M. Jahan Dideh MSc & dr. G.C.L. Vannoorenberghe
- Description This thesis investigates the effect of natural resource rents on sectorial employment in emerging and developing countries. This empirical study found evidence in line with the theory and related studies.

Master Thesis Economics

- Title *ECB's unconventional monetary policy communications and its impact on commodity markets. Grade: 8.*
- Supervisors prof. dr. H.A. Benink
- Description This thesis investigates the signaling effect of unconventional monetary policy surprises by the European Central Bank on commodity futures. This empirical study found heterogeneity in magnitude and sign as a consequence of market surprises across varying commodity futures
